DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Species B (figure 2) in Paper No. 3 is acknowledged.
2. Claims 9, 20-31 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 3.

Although applicant has indicated that claims 1, 9 and 19-31 are readable on the elected Species A, claims 9 and 20 recite a tank and additive tank, respectively, which are only found in the non-elected Species C and D of figures 3 and 4.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claim 19 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 19 appears to be a combination claim (combination of the apparatus and a door) but the preamble recites a subcombination (the apparatus). It is uncertain whether applicant is claiming a combination or a subcombination.

Claim Rejections - 35 USC § 102

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Dimitriu et al. (4,817,218).

Dimitriu et al. discloses a cleansing apparatus comprising: a whole number of tubes (supply tubes to taps 14, 15); valves/actuators 14, 15; a common header (connection of faucet 13 between taps 14, 15); a flexible hose 16; a spray gun 10; a spray tip 31.

6. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Weber (2,540,064).

Weber discloses a cleansing apparatus comprising: a whole number of tubes (supply tubes to handles 13, 14); valves/actuators (valves with handles 13, 14); a common header 11; a flexible hose 21; a spray gun 15; a spray tip 28.

Claim Rejections - 35 USC § 103

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claim 19 is rejected under 35 U.S.C. 103(a) as being unpatentable over Weber (2,540,064) in view of Gorham (1,746,422).

Art Unit: 3752

Weber discloses the limitations of the claimed invention with the exception of the apparatus is mounted on a door. Gorham discloses an apparatus (sink and faucet) mounted on a door 76. It would have been obvious to a person having ordinary skill in the art at the time of the invention to have mounted the apparatus of Weber on a door as taught by Gorham to fold the apparatus into a wall (Gorham, page 1, lines 5-7).

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Logan et al.; Fletcher et al.; Coleman; McMahan; Donavan; Kern et al.; Manville; Exley, Jr., et al.; Ko; Thomas; Roche; Perkins; Judell et al.; Pulkinghorn; Bosio; Petrovic disclose faucet sprayers.
